

Bimbi Preschool Philosophy

We believe children are:

Talented
Interested
Open-minded Inquisitive
Competant Independent
Energetic Imaginative Unique
Resourceful Confident
Capable Creative Social
Curious

We Value:

- Relationships and respectful interactions with children, families and the community.
- Collaborative partnerships for the best outcomes for our children.
- The rich backgrounds and diversity which children and families bring with them.
- A play based learning which is engaging, challenging and inclusive to all children.
- Reflective practices that are responsive to the children and families and allow us to grow as Educators.
- Supporting healthy and sustainable lifestyle choices for positive futures.

We Understand:

- The experience, skills and wisdom children and families bring to the preschool and recognise everyone as an Educator in the children's lives.
- Children will engage with learning in appealing environments with Educators available to support their learning and responsive to them.
- Children learn best through following their interests and offering a flexible, inclusive program that is based on the family's needs, cultures and goals.
- Educators need to be deliberate, purposeful and thoughtful to respond to the children's interests and needs to challenge and extend their learning
- Consistent routines and familiarity support children's sense of belonging, being and becoming to engage in the Educational program, to achieve learning outcomes.

We Acknowledge:

- The Wiradjuri people who are the traditional custodians of the land Bimbi Preschool is upon. We respect Elders both past, present and proudly support the emerging leaders of the future in the Wiradjuri community.
